SKU1	Obstacle
SKU29	DOCK

Explanation: I positioned the 20 first percent at maximum 1 station on the dock (SKU 29) but avoiding the SKU1 who got an obstacle. For the next 30 percent, I posted them at 2 stations from the dock (diagonal included) still without SKU1 because of the obstacle. For the last 50 percents, I put them by their percentage ranking and use the obstacle one, Low percentage is farrest from dock.
